

Well that's our winter work programme completed. All the scrub cutting, burning and tree works have been finished just in time for the nesting season to start. So keep an eye out for all the birds defending their territories and displaying to attract a mate. Look out along Wembury Cliffs for the Peregrine falcons who have been successfully breeding in this area for several years.

Now spring is on its way the Wembury allotments will start turning green again and the allotment holders are busy digging the ground over and planting in their veg. I wish you all a successful growing season.

Friday 26 March sees the start of the summer season for Wembury Car park. Our car park team this year consists of Trevor, Shane, Tricia and Mike; so please stop and have a chat with any of them when you are down on the beach. Also remember that we have a wildlife spotter board. Tell one of the team what you have spotted in the local area and it will be noted on the board for all to see as they drive in.

It has been noted that there has been a mistake printed in the National Trust handbook whereby it states that members will be charged for parking at Wembury beach. This is incorrect, members will not be charged.

On Tuesday April 13th we are running an up the Yealm – canoe adventure where you could join the National Trust warden exploring the river Yealm by canoe and discover more about the history and wildlife of this beautiful area. The trip includes various stops with short walks and a picnic lunch. Cost £50 adult, £20 child. For further information please look on the website www.nationaltrust.org.uk or ring 01752 346585. Booking essential.

Please stop and have a chat to the team if you see us out working or if you have any comments about the work of the National Trust. For further information please call Lorna Sherriff on 01548 810197 or email lornasherriff@nationaltrust.org.uk
